Important Instructions

1. The Regulations require that you notify the Commission in writing **immediately after any damage occurs**.
2. You must not abandon or destroy the crop without notice to and consent of the Commission in writing.
3. If loss or damage occurs and it appears that the potential production of the crop will be less than the guaranteed production, you must notify the Commission in writing within such time as to permit a pre-harvest inspection.
4. Notwithstanding any notice given as required above, if the actual production on completion of harvesting is less than the guaranteed production due to one or more of the perils insured against, you must notify the Commission in writing, **within five days of harvesting**.
5. If you anticipate a claim and have some of the same type of crop stored on the farm from a previous crop year, please advise. Our adjuster will measure the storage in order that it may be excluded from calculation of yield for the current crop year.
